Tourism Japan/2020

Japanese snow resorts hold a certain unique appeal that you won't find in other countries. 110 years have already passed since skiing was first introduced to the country.

SNOW RESORT JAPAN was set up in order to juice up the Japanese ski resorts scene by conveying to visitors of Japan just how amazing Japan's snow and snow resorts really are.

In order to let as many visitors to Japan as possible experience the joys of Japan's snow lands, the **SNOW RESORT JAPAN** project has been running since 2010.
